

honda power storage device diagram

Why do I need a Honda parts diagram? Once the item is ordered, keep track of any tracking information provided. This allows you to follow up on the delivery if there are any delays. Explore detailed Honda parts diagrams to help you identify, repair, and maintain components of your Honda vehicle with ease. Accurate visual guides for efficient repairs. Which Honda power chargers are included in this manual? This manual is valid for Honda Wallbox Power Charger, Power Charger S and Power Charger S+. The pictured devices used in this manual are visual examples. The figures and explanations contained in this manual refer to a typical device design. The devices used by you may differ in their appearance. How does a Honda wallbox power charger work? By default, the charging process is carried out independently by the charging station without a higher-level control system. The charging station attempts to obtain an IP address via DHCP server, if needed. This also corresponds to the basic settings for charging stations without network connection. Not valid for Honda Wallbox Power Charger S +. How do I update the software on my Honda wallbox? To perform the software update via USB or the network connection to Honda Wallbox , Power Charger and Power Charger S, the instructions are included in the *.zip file. For Honda Wallbox Power Charger S+, the configuration manual must also be observed. Does Honda wallbox Power Charger s + have a IP address? Not valid for Honda Wallbox Power Charger S +. If there are several charging stations in a network, an addressing of the charging stations is necessary. The last two digits of the IP address (192.168.25.xx) can be specified with the DIP switches DSW2.1 to DSW2.4. How do I update my Honda wallbox Power Charger s+ software? For Honda Wallbox Power Charger S+, the configuration manual must also be observed. A software update process on the charging station is indicated by a slow or-ange flashing of the LED bar. Remove the existing SIM card from the GSM module (see 8.2.2 Removing the SIM card).
